

建工学院光彪教授D. G. Fredlund讲座的通知

题目: Does Temperament have anything to do with Engineering?

讲座人: 浙江大学光彪讲座教授Delwyn G. Fredlund

语言: 英语 (PPT有中文翻译, 发放中英文对照论文和测试软件)

地点: 紫金港校区安中建工大楼一楼多功能厅

时间: 2009年6月10日下午15:00

详情请见: www.ssgeo.zju.edu.cn

建工学院09年6月2日

-----讲座人简介-----

Delwyn G. Fredlund, 生于1940年, 1973年在加拿大Alberta大学获得博士学位, 加拿大Saskatchewan大学名誉教授, 加拿大工程院院士, 2007年起受聘为浙江大学光彪讲座教授。鉴于他的一系列开创性研究, Fredlund教授被公认为岩土工程“非饱和土力学之父”。

-----Why you should come!-----

- Much can be learned about the smooth functionality of an engineering office as a result of understanding of the TEMPERAMENT of the individual engineers and support staff.
- Much can be learned about the smooth functionality of our homes as a result of understanding the TEMPERAMENT of each member of the family.
- Come and learn about the role that you can best play at home and in the workplace.
- A short “Temperament Quiz” will be given so you can assess your own TEMPERAMENT.

-----See if you can do this!!-----

All Temperaments make a worthwhile contribution to life. It is the hard-driving and adventure-loving _____, who takes the ideas of the genius-prone _____, along with the personable salesmanship of the _____, to produce something that will be enjoyed by the easy-going _____.

- A. Sanguine (多血质, 热情活泼稳重不足) B. Choleric (胆汁质, 自主坚定雄心勃勃)
C. Melancholy (抑郁质, 敏感内秀完美主义) D. Phlegmatic (粘液质, 随和冷静富有条理)

**Come to know why
Sarko is Sarko and
Putin is Putin and
why they will
always be
themselves!**
